WELCOME TO THIS RED CARPET EXPERIENCE

FACIAL REJUVENATION
MASTER THE TECHNIQUES

FEATURING LIVE SURGERY, INJECTABLES COURSE, MULTIDISCIPLINARY FACULTY

CO-CHAIRS
Stephen W. Perkins, MD || Theda C. Kontis, MD || Rami Batniji, MD

March 16-19, 2016

TO BE HELD AT THE ICONIC

Beverly Wilshire, A Four Seasons Hotel
Beverly Hills, California
Volume in all the right places

*Discover Conform™ Facial Implants*

With their patented grid for flexible yet secure placement, Conform™ silicone facial implants provide the permanent volume required for a youthful, aesthetic appearance.

They readily adapt to bony contours and are easily trimmed to ensure the most pleasing effect.

Choose from Conform chin and midfacial implant styles, all designed for more precise results without the problems or guesswork associated with injectable fillers.

For permanent patient satisfaction, contact Implantech today.
WELCOME FROM THE DIRECTORS

As course directors for the new world premiere of the AAFPRS-sponsored meeting, Facial Rejuvenation 2016: Master the Techniques, it is our distinct pleasure to welcome you to this red-carpet experience!

We have worked hard to bring you a multidisciplinary faculty consisting of leaders in the fields of facial plastic surgery, plastic surgery, oculoplastic surgery, and dermatology. The program includes a strong focus on advanced rejuvenation techniques, pearls for surgical and non-surgical facial rejuvenation, avoidance and management of complications as well as two half-days of live surgery with “dueling” surgeons.

You won’t want to miss the keynote speaker, Mr. Michael Westmore, who is probably the most famous makeup artist in Hollywood. Speaking of Hollywood, our own Dr. Paul Nassif will tell us what it is like to star on a hit TV show, Botched!

On Saturday, please join us for a 10-hour injection program suitable for both physician and non-physician injectors that will include live injection demonstrations of both on-label and off-label techniques. You are welcome to move back and forth from the main lecture hall to the injectables course as you wish.

We hope you enjoy this multi-specialty learning experience and we look forward to sharing this landmark event with you!

Respectfully,
The Co-directors

**Stephèn W. Perkins, MD**  **Théda C. Kontis, MD**  **Rami K. Batniji, MD**
TARGET AUDIENCE
The course is offered for continuing medical education of medical students, residents, fellows, and practicing physicians (MDs and DOs) in the field of facial plastic and reconstructive surgery. The program is for physicians with all levels of experience and covers aesthetic, reconstructive, and congenital issues relevant to this specialty.

ACCREDITATION AND CREDIT DESIGNATION
The Educational and Research Foundation for the American Academy of Facial Plastic and Reconstructive Surgery (AAFPRS Foundation) is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to sponsor continuing medical education for physicians.

The AAFPRS Foundation designates this live activity for up to 32 (and 8.25 CEU/CME for Injectables Course) AMA PRA™ Category 1 Credits. Physicians should claim credit commensurate with the extent of their participation in the activity.

This activity has been submitted to the Western Multi-State Division for approval to award nursing contact hours. The Western Multi-State Division is accredited as an approver of continuing nursing education by the American Nurses Credentialing Center's Commission on Accreditation.

LEARNING OBJECTIVES
- Discuss the various techniques in surgical rejuvenation of the brow, including complications and management of complications.
- Discuss the various techniques in surgical rejuvenation of the periorbital region, including complications and management of complications.
- Discuss the various techniques in nonsurgical rejuvenation of the face and neck, including the use of injectable fillers and neurotoxins.
- Discuss complications of injectable fillers in facial rejuvenation and the management of these complications.
- Understand the technical details for various surgical facelift and necklift procedures.
- Understand the indications for autologous fat grafting and the technical details of harvesting fat and performing autologous fat grafting procedure.
- Discuss facelift and necklift complications and the management of these complications.
- Discuss ablative and non-ablative treatment options in facial rejuvenation, including laser, ultrasound, and radiofrequency-based technologies.
- Assess controversial topics in facial rejuvenation in order to make more informed decisions.

Disclaimer
Registrants for this course understand that medical and scientific knowledge is constantly evolving and that the views and techniques of the instructors are their own and may reflect innovations and opinions not universally shared. The views and techniques of the instructors are not necessarily those of the Academy or its Foundation but are presented in this forum to advance scientific and medical education. Registrants waive any claim against the Academy or its Foundation arising out of information presented in this course. Registrants also understand that operating rooms and health-care facilities present inherent dangers. Registrants waive any claim against the Academy or Foundation for injury or other damage resulting in any way from course participation. This educational program is not designed for certification purposes. Neither the AAFPRS nor its Foundation provides certification of proficiency for those attending.

The AAFPRS would like to acknowledge Richard W. Fleming, MD and Toby G. Mayer, MD and the Beverly Hills Institute for hosting the live surgery portion of this meeting.

AAFPRS MEMBERSHIP BOOTH featuring the Video Learning Center

Visit the AAFPRS Membership Booth to pick up samples of the attractive, four color patient brochures and the matching Face Book--perfect for your waiting areas. Find out more about LEARN, the Academy’s educational portal, and explore its many benefits to both members and non-members. Non-members, find out about the benefits of being an AAFPRS member. Pick up an application form and walk away with a “thank you” gift.

Peruse our video catalog and watch surgical videos at your leisure. You have the opportunity to view over 275 procedural and instructional videos which you may also purchase on-site at a discounted price.

A BRAND NEW video by Stephen W. Perkins, MD, “The Extended SMAS Facelift with Clamp Anterior Platysmaplasty,” will be shown during breaks. Other recent releases include: Controlling the Dorsum by H. Steve Byrd, MD; Tip Straightening, Septal Transplantation, Modified Butterfly Graft by Tom D. Wang, MD; Lasers in Facial Plastic Surgery by Andrew Campbell, MD and J. Kevin Duplechain, MD; Ptosis Repair by Don Kikkawa, MD; and Treating the Brow, Upper Eyelid, Lateral Canthus, Lower Eyelid and Midface as One Aesthetic Unit by Richard Anderson, MD.

WEDNESDAY
March 16, 2016
12:00pm - The Ballroom at the Beverly Wilshire
Title of Lecture: KYBELLA® (deoxycholic acid) injection – Redefining The Contour of the Submental Area
Presenter: Rami Batniji, MD

An introduction to KYBELLA® (deoxycholic acid), the first and only FDA-approved injectable drug that reduces submental fullness. This presentation examines the causes of submental fullness, the results from clinical studies and before-and-after photos which illustrate how KYBELLA® can help meet patients’ aesthetic needs. Dr. Batniji will also discuss how health care professionals can successfully integrate KYBELLA® into their practices.

The AAFPRS wishes to thank Allergan for their non-educational grant in support of the Noon Lecture.

WEDNESDAY
March 16, 2016

6:00pm Adjournment

Evaluation and CME Credits

With the launch of the AAFPRS Foundation's LEARN (Lifelong Educational and Research Network) in 2013, we now have the capability of capturing meeting evaluation responses and award CME credits to participants on line at www.aafprs-learn.org.

Please note that in order to access your personal LEARN account, you will need to know your AAFPRS log on ID and password. If you do not know your current AAFPRS ID and password, go see Karen Sloat at the registration area and she will provide you with the necessary information to complete your evaluation and claim your CME Credits. There is a tutorial on the LEARN home page that will describe the various aspects of the site and how each can assist you in building your personal educational experience. Don't wait; visit the LEARN site at: https://www.aafprs-learn.org/default.aspx.
For decades, Beverly Wilshire, Beverly Hills (A Four Seasons Hotel) has been a preferred address for Hollywood celebrities and the international elite – from Elvis Presley, John Lennon and Warren Beatty to the Aga Khan, Dalai Lama and the British royal family. Enjoy Michelin-starred dining, a world-class spa and warmly hospitable Four Seasons service. A landmark since opening in 1928, Beverly Wilshire, Beverly Hills (A Four Seasons Hotel) combines history and glamour in the heart of Beverly Hills, California – just steps from Rodeo Drive shopping and dining.

on the Hudson River

Watch up close the Louis Vuitton America’s Cup World Series in New York with Edwin F. Williams, III, MD, AAFPRS President on the AAFPRS Yacht (for the event)

America’s Cup racing will return to New York for the first time since 1920! Let’s support the ORACLE TEAM USA while enjoying a hot buffet and open bar with family and friends.

The ORACLE skipper says “The New York event is going to be spectacular. Racing on the lower Hudson River, in front of that Manhattan skyline... thrilling, top-level racing right in the heart of the city.”

The AAFPRS Yacht will be right in the middle of the action! Space is limited – reserve your spot in racing history!

Contact: Ann Jenne at AJenne@AAFPRS.org; 703.299.9291 ext. 229.

AAFRPS YACHT
Visit the AAFPRS Membership Booth to pick up samples of the attractive, four color patient brochures and the matching Face Book—perfect for your waiting areas. Find out more about LEARN, the Academy’s educational portal, and explore its many benefits to both members and non-members. Non-members, find out about the benefits of being an AAFPRS member. Pick up an application form and walk away with a gift.

LIFE IS A JOURNEY.

DON'T LET HER WRINKLES TELL HER STORY.

Help smooth the appearance of wrinkles and folds with RADIENSE®, a volumizing filler. In a single treatment this robust filler provides immediate lift while stimulating the natural production of collagen. The results last a year or more in many patients.¹,²

Provide an instant lift with RADIENSE, which is FDA-approved for correction of moderate to severe facial wrinkles and folds, such as nasolabial folds.³

Visit www.radiesse.com or www.radiessedemen.com to learn more.

INDICATION

RADIENSE® injectable implant is FDA-approved for subdermal implantation for the correction of moderate to severe facial wrinkles and folds, such as nasolabial folds.

RADIENSE® IMPORTANT SAFETY INFORMATION

Contraindications:

RADIENSE injectable implant is contraindicated for patients with severe allergies manifested by a history of anaphylaxis, or history or presence of multiple severe allergies; patients with known hypersensitivity to any of the components; and patients with bleeding disorders.

Warnings:

Use of RADIENSE in any person with active skin inflammation or infection in or near the treatment area should be deferred until the inflammatory or infectious process is controlled. RADIENSE can cause injection reactions consisting mainly of short-term bruising, redness, and swelling. RADIENSE should not be injected into the blood vessels.

Do not overcorrect (overfill) a contour deficiency with RADIENSE because the depression should gradually improve within several weeks as the treatment effect of RADIENSE occurs. The safety and effectiveness for use in the lips has not been established. There have been published reports of nodules associated with the use of RADIENSE injected into the lips.

Precautions:

RADIENSE contains calcium hydroxyapatite (CaHA) particles that are radiopaque and are clearly visible on CT scans and may be visible in standard, plain radiography.

Safety of RADIENSE in patients with a susceptibility to keloid formation and hypertrophic scarring has not been studied. Safety and effectiveness in the periorbital area or with concomitant dermal therapies or other drugs or implants has not been established.

As with all skin-injection procedures, there is a risk of infection with RADIENSE.

Safety of RADIENSE for use during pregnancy, in breastfeeding females or in patients under 18 years has not been established.

Patients who are using medications that can prolong bleeding, such as aspirin or warfarin, may experience increased bruising or bleeding at the injection site. Patients should inform their physician if they are using such medications. Interactions between RADIENSE with drugs or other substances or implants have not been evaluated.

Patients should minimize exposure of the treated area to excessive sun or heat exposure for approximately 24 hours after treatment or until any initial swelling and redness has resolved.

RADIENSE is for Single Patient Use Only. Do not use if needle is bent; discard it and complete the procedure with a replacement needle. Do not re-ship used needles. Discard needles and syringes as if potential biohazards.

Patients with a history of previous herpetic eruption may experience reactivation of the herpes.

Adverse Events:
The most common serious adverse events that have been seen with RADIENSE when injected into the nasolabial folds include necrosis, allergic reaction, edema, and infection. Common adverse events with RADIENSE are generally mild in nature and short in duration and include bruising, redness, swelling, pain, itching and other local side effects. To report a problem with RADIENSE, please call Customer Service at 1-866-862-1211.

For complete Safety Information please refer to the Instructions for Use document at www.radiesse.com
